This online revelation roman housing can be one of the options to accompany you afterward having extra time.

**Roman Housing**

Housing (Roman and later) was one of the commonest apartments in private residences. Furthermore, the city provides an excellent opportunity to learn more about roman housing and its evolution over time. The upper classes lived in large houses, often surrounded by gardens or other private land. The lower classes lived in smaller homes, often in close proximity to each other. There were a number of differences between the housing of the rich and the poor in roman times. For example, the rich had more space, better quality materials, and better amenities such as indoor plumbing and heating. The poor lived in smaller, more crowded conditions with less access to amenities.
