Burt-Watts Creates New Store for Goodwill in North Austin

Austin-based commercial general contracting firm Burt-Watts Industries Inc. provided general contracting and construction management services for the finish-out of Goodwill Industries of Central Texas' new 19,000-sq-ft retail store in north Austin.

Working with GICT's design specifications, Burt-Watts created a contemporary retail environment that incorporates design elements and defined and organized areas for merchandise. To date, Burt-Watts has renovated, expanded and built 11 stores in the region in collaboration with Goodwill.
